SOFA - INSTRUCTIONS FOR USE AND MAINTENANCE

- 1) Folding sofas of all widths have a total load capacity of 180 kg for sitting and lying down. They are designed for sitting, occasional and some for everyday sleeping (depending on the type of set).
- 2) The upholstered sofa must always be placed in a horizontal position (on a level floor) to prevent damage to the folding mechanism.
- 3) For upholstered products that are intended for sleeping, it is advisable to use a "mattress protector" to prevent damage to the upholstery fabric due to perspiration. When handling the mattress protector (eg removing or slipping on), take care not to damage the mattress.
- 4) A part of the folding sofa set - after unfolding on the bed - is a mattress with an Aloe Vera cover with Greenfirst natural antibacterial treatment with a mixture of essential oils. The treatment prevents the occurrence of mites and suppresses body odours, thus ensuring optimal bed hygiene. The cover of the Aloe Vera mattress is removable, washable at 40 ° C. Wash the mattress cover several times a year and always in accordance with the symbols on the cover fabric.
- 5) The mattress, which is part of the sofa bed, must be ventilated and turned regularly.
- 6) Maintenance of metal or wooden parts of the sofa consists in lightly wiping the dust with a dry clean cloth, without strong abrasion. Do not expose these parts to aggressive chemicals.
- 7) Carry out regular maintenance of the upholstered parts by removing surface dust and small impurities only with a vacuum cleaner. Use it at low / medium power with an attachment for maintenance of upholstered products.
- 8) If dirt (stain) forms on the non-removable cover of the sofa, remove the stain immediately with a white damp cloth soapy with neutral soap. Make sure that the cleaning takes place on the surface of the fabric and that it does not get wet. Do not use products containing petrol, trichlorethylene, chlorine, kerosene and other unsuitable agents. There is a risk of irreparable damage to the fabric, or and inner layers of upholstery. Detailed instructions for the maintenance of fabrics with Aquaclean treatment (Mystic), including the cleaning of various types of stains, can be found at <https://www.aquaclean.com/en-gb/how-to-clean-stains>.
- 9) Never use violent methods and means (eg sharp brushes, sandpaper and other unsuitable aids) to completely clean upholstered products, as they could irreversibly damage the product.
- 10) Upholstered furniture is intended only for interiors with room temperature and standard humidity. Not intended for humid environments (eg swimming pools).
- 11) Longer service life of color fastness of the upholstery fabric and construction can be achieved by placing it in an environment without direct sunlight and protecting it (eg. with blinds, curtains).
- 12) Protect upholstered furniture from radiant heat and open flame. There is a threat not only of rapid aging, but also of the possibility of ignition and subsequent fire.
- 13) Upholstered furniture must not be overloaded or unduly stressed, eg by jumping, the weight of more people than the product is intended for, etc.
- 14) Sitting on the armrests, backrests and similar improper use can damage the product, tip the person over and fall, resulting in injury.

- 15) Upholstered products and mattresses are not designed and constructed for the stay of animals.
- 16) When closing the sofa mechanism, all bedding and objects that could damage the structure must be removed from the seat.

Love your sofa!

Látku lze čistit vodou
Fabrics you can clean with just water

ČIŠTĚNÍ A ÚDRŽBA / MAINTENANCE AND CLEANING

S AquaClean se teď skvrny čistí pouze vodou / Now, you can clean stains with just water

ÚDRŽBA / MAINTENANCE

Pro běžnou údržbu sedacích souprav doporučujeme vysávat celou plochu pravidelně. Můžete použít vysavač s kartáčem.
For normal sofa maintenance we recommend that you vacuum the entire surface area regularly. You can use a normal home vacuum cleaner with a brush fitting.

Čištění vodou, v pouhých třech krocích / Water cleaning in three simple steps

Tecnologie AquaClean® umožňuje odstraňovat malé skvrny od vína, kávy, jídla a dokonce některých fix bez použití mydla.

AquaClean® Technology enables you to get rid of small stains such as wine, coffee, food and even most marker pens without having to wash with soap or detergent.

1. Z čalounění odstraňte zbytky nečistot.
 2. Skvrnu navlhčete vodou, a to buď přímo, nebo savým mokřým a vyždímaným hadříkem. Pár sekund počkejte.
 3. Přitlačte hadřík na skvrnu a jemně ji krouživými pohyby otírejte. Pokud skvrna nezmizí úplně, proces opakujte, dokud není zcela odstraněna.
1. Remove any excess residue on the upholstery.
 2. Apply water over the stain, either directly or using a damp cloth. Wait a few seconds.
 3. Press down over the stain with the damp cloth and rub gently over the fabric using circular movements. If the stain does not come off completely, repeat the process as required.

Praní / Whasing Instructions

K obvyklé údržbě pohovky není nutné látku prát. V případě velkých skvrn se před praním řiďte následujícími pokyny:

For normal care, you don't need to remove and wash the sofa fabric. But for large or tough stains, before washing review the following instructions:

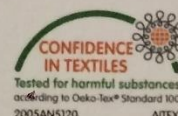

- Lze prát v pračce na jemný cyklus (maximálně 30°C).
 - Použijte neutrální prací prostředky.
 - Neždímejte.
 - Nepoužívejte bělicí prostředky.
 - Nesušte v sušičce.
 - Nesušte na slunci.
 - Neždímejte ani nepřekrucujte.
 - Žehlete po rubu.
 - Použijte jemný kartáč.
- Machine wash, delicate cycle (maximum 30°C).
 - Do not spin dry.
 - No bleach.
 - Do not dry in tumbler.
 - Do not dry in sunlight.
 - Do not squeeze or wring.
 - Iron inside out.
 - Can be dry cleaned.
